=====
** High Priority **

Stephanie and Eugenia:

As discussed with Stephanie this afternoon, after further consideration the CPG has decided not to analyze PCB or Dioxin/Furan water samples from Newark Bay; the CPG will collect and analyze for the other parameters collected as part of the SV-QAPP for Event 4.

Thank you.

Stephanie & Eugenia:

The CPG will collect and analyze PCBs as well as the remainder of the analytical parameters in the Bay on Wednesday (6/6) and Thursday (6/7). We have looked at the PCBs and we are not in total agreement with HQI's observation that there is large percentage of non-detects - is this out of the total 209 congeners or in relation to those congeners detected in the LPR?

Has Tierra responded to your May 31 email?

Please contact me with any questions.

Thank you.
